

# Why choose West Parkway ASC for your patients?

During these challenging economic times, it is especially important to ensure your patients have timely access to the high-quality care you prescribe for them. By performing surgery at one of our accredited ASCs instead of at a hospital, you will significantly reduce the cost of surgery for your patients.

## ASC vs. Hospital Outpatient Medicare Coinsurance <sup>1</sup>

1. Medicare patient coinsurance payments are estimates based on calculating weighted averages of 2009 National Medicare rates weighted by the latest available Medicare ASC case volume data (2006). Patient coinsurance payments assume a standard Medicare Part B coinsurance rate of 20%. However, actual coinsurance amounts paid by patients may be higher or lower than dictated by the 20% coinsurance rate.
2. Plastic Surgery includes dermatology.

Talk to us today to learn more about how our centers can improve the efficiency of your practice and a better option for your patients financially and clinically.
